Dear Mr. Golden,

On behalf of the Benjamin Banneker Honors Math & Science Society, I would like to express our appreciation to you for your excellent presentation to our parents and students. As you are aware, the seminar is a component of our Economic Development Program and was attended by at least 60 students and adults.

Your ability to relate your Academic, Social and Professional experience to today's youth is exceptional. In addition, your enthusiastic delivery was well received by the students. Again, thank you for your support and I look forward to you coming back again.

Sincerely,

Mrs. Arlene B. Speller
